

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application.

Listing of claims:

Claims 1-14. (canceled)

Claim 15. (currently amended) An Internet facsimile apparatus, comprising:

an interface configured to receive e-mail;

a printer configured to print the e-mail; and

a controller configured to:

determine whether the received e-mail includes a text part when it is determined that the received e-mail comprises a multipart structure; and

determine whether the text part includes only a predetermined code, the received e-mail being printed without printing ~~a page including the text part~~ a text part page when it is determined that the text part includes only the predetermined code.

Claim 16. (previously presented) The Internet facsimile apparatus according to claim 15, wherein the predetermined code comprises a code representing a space.

Claim 17. (previously presented) The Internet facsimile apparatus according to claim 15, wherein the predetermined code comprises a code representing a tab.

Claim 18. (previously presented) The Internet facsimile apparatus according to claim 15, wherein the predetermined code comprises a code representing a line feed.

Claim 19. (currently amended) An Internet facsimile apparatus, comprising:

an interface configured to receive e-mail;

a printer configured to print the e-mail; and

a controller configured to:

determine whether the received e-mail includes a text part when it is determined that the received e-mail comprises a multipart structure;

determine whether the text part includes only a predetermined code; and

determine whether image data is attached to the received e-mail, the image data being printed without printing ~~a page including the text part~~ a text part page when it is determined that the text part includes only the predetermined code.

Claim 20. (previously presented) The Internet facsimile apparatus according to claim 19, wherein the predetermined code comprises a code representing a space.

Claim 21. (previously presented) The Internet facsimile apparatus according to claim 19, wherein the predetermined code comprises a code representing a tab.

Claim 22. (previously presented) The Internet facsimile apparatus according to claim 19, wherein the predetermined code comprises a code representing a line feed.

Claims 23-33. (canceled).

Claim 34. (currently amended) An e-mail receiving method, comprising:
receiving e-mail;

determining whether the received e-mail includes a text part when it is determined that the received e-mail comprises a multipart structure; and

determining whether the text part includes only a predetermined code, the received e-mail being printed without printing ~~a page including the text part~~ a text part page when it is determined that the text part includes only the predetermined code.

Claim 35. (currently amended) An e-mail receiving method, comprising:
receiving e-mail;

determining whether the received e-mail includes a text part when it is determined that the received e-mail comprises a multipart structure;

determining whether the text part includes only a predetermined code;
and

determine whether image data is attached to the received e-mail, the image data being printed without printing ~~a page including the text part~~ a text part page when it is determined that the text part includes only the predetermined code.

Claims 36-42. (canceled).
